Illustrations & extent: Full colour/128 pages

BIC Code: Outdoors/active/walking = WSZC

Key selling point: **A guide to the classic, 'must do' fell walking rounds**

Outline: This is a **pocket-sized** guide designed to be taken with you on the fells and outlines the many classic fell walking rounds to be enjoyed on the Lakeland fells. It is aimed at the moderate to advanced user wanting complete circuits rather than detailed information on each fell. It includes classics like the **Striding Edge/Swirral Edge** round, the **Coledale Horseshoe**, **Fairfield Horseshoe**, **Mosedale Horseshoe**, **Langdale Pikes** etc. A total of 78 Wainwrights are covered by the guide.

The book is also intended as an inspirational guide and uses lots of the author's high quality photographs to inspire the user well before they even set foot on the fells. Each route is outlined on the relevant **Ordnance Survey** map and includes information on distances, height gained and parking.

Biography: **Carl Rogers** has written and published over 20 walking titles for North Wales and Cheshire. His latest guide follows a best-selling series for the mountains of Snowdonia. He is a full-time guide book writer, photographer and publisher and is a member of the Outdoor Writers Guild.
